## ➔ **Brow Diva Base & Powder**

[Sophia](#)

Never let it be said that Nature does not have a sense of humor: My eyebrows are growing to meet my hair on the sides, but balding in the middle.

With my very pale skin & dark hair, my disappearing eyebrow middles are extremely odd-looking. It made for some very odd pictures, especially over the holidays...

My brows have been saved by Brow Diva!!!  
It is brilliant.

Sometimes I use just the base, sometimes just the powder, sometimes both. Any combination works wonders!

Next time I am anywhere near Rochester, NY, I will be booking a session at the Brow Diva Studio.

Oh, the Brow Diva genius can help all of us! There are [6 shades](#), great for everyone from blonds to redheads to the raven-haired!
